FUT-URA

NUMB3RS OF G3OM3TRY!

ABCDEFGHJKLMNOPQRSTUVWXYZ

abcdeghijklmnopq rstuvwxyz?!@#$%

0123456789

4

The 4 in the futura font appears to just be 3 straight lines but it actually is altered to meet at a point at the top and the left side

9

The 9 of the futura font appears to be a circle and a line meeting but it actually is not because the line curves into the circle at the meeting point of these 2 geometric shapes. So, although futura is known as a geometrically shaped font they do have some alterations.
